To whomever it may concern,

We have recently implemented 'Aptcare' a software product from Aptsource for 15 of our directly managed clinic locations.

We have found the product to be easily customizable; we like the Web-based application, the remote access, the ability to use it from anywhere, anytime. Our users have found the software intuitive and easy to use.

We have a great working relationship with the product team and management of Aptsource and really hope to see this relationship growing stronger over time.

Yours faithfully,
