To Whom It May Concern:

RE: REFERENCE LETTER – APTSOURCE SOFTWARE PVT

The above subject refers.

We wish to confirm that we have implemented 'Aptcare' a HIS product from Aptsource for our hospital known by the name St Johns Medical Centre, based at Lusaka. We are using this product for almost 2 years now and really like the ease of using the system, which also made the transition really smooth. We found the product to be easily customizable to suit our specific requirements; we really feel this product has helped us to go paperless and improved the efficiency of our clinical and administrative staff through automation of key system workflows.

The Aptcare team has also successfully integrated the HIS with our pre-existing back office systems and we really appreciate the services rendered for the same. We have an excellent working relationship with the management team of Aptsource and really hope to see this relationship maturing to fulfill several other future requirements of our hospital network.

We therefore, have no reservations in recommending them to you for any further corporate business relationship you would want to engage with them

Your cooperation will highly be appreciated

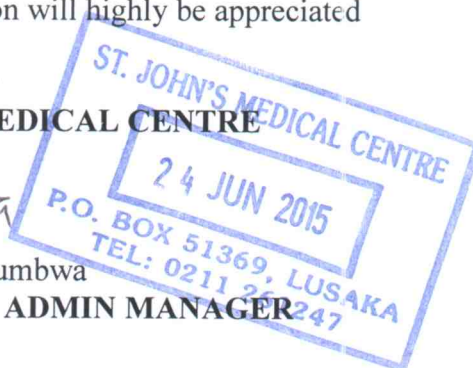

Yours faithfully

ST. JOHNS MEDICAL CENTRE
